

Lokale - og Anlægsfonden

Main idea

The Danish Foundation for Culture and Sport Facilities, aims to create more and better leisure facilities for the Danish population. Considering the needs now and for the future, the Foundation develops and supports the physical settings for the voluntary part of the culture and leisure life.

Conditions in Denmark

- The municipalities are responsible for the establishment of libraries in Denmark.
- The Foundation is not allowed, according to our regulations, to subsidise objects where the municipality is responsible.
- The Foundation can therefore only participate in limited parts of library – projects.

Local involvement

- One of the Foundation's aims is to involve the local partners/citizens.

What does the Foundation to support that aim?

- We have made a booklet, with recommendations how to organize a local process.
- The foundation can participate in the local process and help the local process.

Benefits/advantages ?

- Local Ownership - "it becomes the project of the local citizens"
- Local "ambassadors"
- Stimulate the local democracy.
- Advantages for the locals and the local area.
- The citizens will be more satisfied which is good for the municipality
- Win - Win
- The local knowledge can be very important, and qualify the project.

Disadvantages?

- Not many!
- Time – it may be a longer process.
- But if you prepare the process proper – it is a small problem.

Frames and roles

What is important:

- Clear conditions/terms.
- That all partners agree on the conditions - terms
- That the option/aims are clearly defined.
- That it is clearly who can decide what?
 - What can the Local people decide?
 - What has the municipality to decide?
- You hear what you want to hear!!

Example

Haraldslund, Aalborg:

Llibrary - swimming bath – Community centre

- Library and a swimming bath are build together .
- Commen foyer/reception desk,
- The Library has increased the lendings with over 30 %
- The swimming bath has increased the number of visitors with over 30 %

Haraldslund, Aalborg

Library – swimming bath / Community Centre

Common foyer/reception desk,

Local involvement

- What are the limitations when we talk about local involvement?

Urban regeneration project

Kvarterløft Nord-Vest – Copenhagen

- **Hulgårds Have**
- residence /park (PPP)
- **Glud og Marstrand**
- residence /park (PPP)
